The University of California, Davis, Medical Center, one of the nation's "Top 50 Hospitals," is a 613 bed academic medical center with approximately 80,000 emergency department visits annually, including approximately 17,000 pediatric visits. The new emergency services facility opened in 2010 and is state-of-the-art. Our program provides comprehensive emergency services to a large local urban and referral population as a level 1 trauma center, paramedic base station and training center. The department also serves as the primary teaching site for a fully accredited Emergency Medicine (EM) residency program and seven different EM fellowship programs. Our residency training program began more than twenty years ago and currently has 42 residents. The Department has a separate area for the care of children and is one of the leading centers in the Pediatric Emergency Care Applied Research Network (PECARN).

Salary and benefits are competitive and commensurate with training and experience. Sacramento is located near the northern end of California's Central Valley, close to Lake Tahoe, San Francisco, and the "wine country" of the Napa and Sonoma Valleys.
