Educational advances are structured reports of innovative curricular interventions and meaningful insights gained through the implementation of new ideas.

- **BACKGROUND** – Explain to the reader why the educational innovation is important.
What is the rationale for developing the innovation?
- **OBJECTIVES** – Clearly describe the educational objectives.
- **CURRICULAR DESIGN** – Provide a detailed description of the curricular innovation including the development and implementation of the innovation.
Why was the educational method chosen?
Provide a concise description of the innovation (resources, logistics, tips for success, challenges, lessons learned, etc.)
- **IMPACT / EFFECTIVENESS** –
What methods were used to assess the learner or evaluate the innovation?
How can the innovation be applied to other programs.
How the innovation will impact or has impacted current educational practice.

Although abbreviated in length, “Brief Educational Advances/Innovations” should still have pilot data to support the impact / effectiveness of the innovation. These submissions will have a 750 word count limit and up to 1 table or figure, they do not require a structured abstract.

Figures/Tables

- All figures/tables/videos to be referenced within text of manuscript in the order they appear
- Make sure that there are no titles or bold fonts in figures/images/tables
- Fully descriptive legends for each figure and table such that they could stand alone if removed from the context of the larger paper.
 - Tables legends are above the Table and legends are below the Figure
- Abbreviations in figures/tables must be spelled out or notated in legend or footnote, even if already done so in text
- Include an excel document of tables/figures as a supplementary file if present
- All line art figures have a minimum resolution of 600 dots per inch (DPI) and images 300 DPI
 - To check DPI: Right click image file, Click “Properties”, found under Details
 - To change DPI: Open image using Photoshop, Click “Image”→Image Size→Resolution→ 600 pixels/inch
- Every figure/video includes contrasting black or white arrows clearly pointing to important (even obvious) findings
- Tables are made in a Microsoft Word document using "Insert Table" function
 - Each column must have a heading

Integrating Emergency Care
with Population Health

- Minimum size of 2 X 2
- Every row/column, including subcategories (i.e. female and male subcategories below gender category) should be split into own cells. This includes corresponding data for each sub-category.
- Subcategories should be indented by 0.125 inches
 - Sub-subcategories should be indented by 0.25 inches

Example Table: Type fully descriptive legend here. (List all abbreviations here).

Heading 1	Heading 2
Gender	0.00
Female	0.00
Male	0.00

Videos

- Up to 1 minute for radiologic findings such as ultrasound, CT, or MRI
- Up to 5 minutes for other videos (e.g. demonstrations of a procedure)
- Videos must be narrated or annotated

Acknowledgements

- List any grants received for the manuscript, and if this includes an NIH or CDC grant then provide the grant number
- Conflicts of interest if any exist
- Name anyone you would like to acknowledge who is not an author on the manuscript but contributed to the study

References

- All submissions must contain references

- They must be listed in the order in which they first appear in text (not alphabetically)
- References follow the American Medical Association Citation Style Guide. (<http://www.lib.jmu.edu/citation/amaguide.pdf>) except:
 - Authors: List up to three authors, before putting et al. If there are only two authors, replace comma between names with “and”
 - Remove DOI
 - Delete spaces between publication year, volume, issue, and page numbers
- In-text reference numbers should be placed after the period as a superscript, like this.¹
 - Arabic numerals (i.e. 1,2,3) are used instead of roman numerals (i.e. i, ii, iii)
- Journal names must be abbreviated and italicized
