Department Sponsor Kit

INTERNATIONAL EMERGENCY MEDICINE OPEN ACCESS JOURNAL

The Western Journal of Emergency Medicine: Integrating Emergency Care with Population Health (WestJEM) has been in publication since 2007. WestJEM is the premier open access, peer-reviewed emergency medicine journal read by over 19,000 physicians, residents, and healthcare providers and over 200 distinguished emergency medicine chairs and program directors across the nation. We have over 180,000 hits and downloads from our websites.

- **FREE** electronic full text issues of WestJEM and CPC-EM to all residents of department sponsors.
- **FREE** WestJEM.com postings of your department's CME advertisements that are consistent with ethical policies of our journal sponsors and align with AAEM's mission.
- **FREE** online advertising of your department's job postings on our Academic Job Board that are consistent with the ethical policies of our journal sponsors.
- **EARLY-BIRD ANNOUNCEMENTS** of open reviewer and Section Editor positions.

## SUPPORT OPEN ACCESS

### WHAT IS "OPEN ACCESS"?

Open access is the practice of providing free access to scholarly, peer-reviewed journal articles via the internet. Traditionally, scholarly works on the cutting-edge of their respective fields have been locked away in the ivory tower of academics. Changing this model to help make new knowledge more available is the goal of open access.

### WHY SUPPORT OPEN ACCESS?

Supporting open access should be a goal for all researchers. Providing access to scholarly articles free of charge helps to disseminate new ideas and discoveries. As the world becomes more connected through advancing technology, it is important that the most current and relevant information be accessible. This requires all producers of new scientific knowledge to sign on to this idea.

### WHY SPONSOR WestJEM?

The Western Journal of Emergency Medicine: Integrating Emergency Care with Population Health is committed to providing the latest articles in emergency medicine related to critical care, technology, public health, and more in the open access ideal. However, in order to remain true to this idea, WestJEM needs financial contribution and support through sponsoring emergency departments and universities. Your sponsorship will help us keep the contents published in WestJEM accessible and free of charge to anyone with a connection to the internet anywhere in the world.

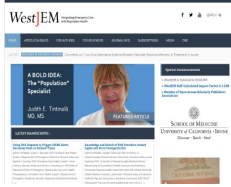

## PUBLICATION NICHE

This journal focuses on the development of better systems to provide emergency care, including technology solutions critical to enhancing population health. Each issue focuses on a specific topic:
