

KU Emergency Medicine Nocturnist

The University of Kansas School of Medicine Department of Emergency Medicine is seeking a Nocturnist to be an integral member of emergency medicine team. The Emergency Department is currently 57 beds with 33 faculty, 30 residents, and 9 APP's serving greater than 64,000 annual visits at a 1,045-bed Level 1 trauma center. The medical center is also a comprehensive stroke center, STEMI & advanced cardiac care center, NCI-designated cancer center, and an active transplant center. The ED patient population is diverse and reflects the high acuity & complexity of the hospital's advanced specialties.

The ED broke ground on an immediately adjacent expansion that will result in greater than 75 all-private & monitored beds, a 2nd CT scan, multiple new resuscitation bays, and ample provider and nursing stations to be completed in 2023. The program has EM fellowships in Ultrasound, Administration, Education, and is completing ACGME accreditation requirements for a new EMS fellowship.

This position will interact and collaborate with multiple departments and the various institutes throughout the KU Medical Center. The long-term vision is for growth within the Department of Emergency Medicine that will lead to long-term sustainability.

Our **vision** for The University of Kansas Department of Emergency Medicine is to be the center of excellence for our region. We are committed to the well-being of our community through outstanding medical care, transformative education, innovation, and discovery.
